

Hi all,

Happy new year everyone!! For the last couple of years, I have been pre-diabetic, but about two months ago I found out that I have Type 2 diabetes. Thank God that I've been eating better and am on meds. One benefit is that I've lost 20 pounds!! Please pray for my health, to develop better eating habits, and the strength to stay away from sugar. Thanks all.

One exciting thing on the college campus is our emphasis on Mark in our weekly meeting and a new ministry called Fellowship Fridays with a focus on new people. It's a little more low key and designed to be comfortable, engaging, and biblically appropriate for new people (milk of the Word).

This semester, we are working harder at developing student leaders. We want our six student leaders to initiate, come up with creative ideas, and as a team serve the Lord well while the student leaders grow. So far, we have seen some good growth and we praise God for that. Pls pray for wisdom and blessing as we grow in this area.

Tonight and tomorrow, 2/19-20, we are having our national Epic conference on zoom. Pls pray for fruit, commitment, and an openness to hear and follow the Lord.

Thanks for your prayers and financial partnership in serving the Lord.

God bless,

Jerry Wong  
Epic Team Leader, Silicon Valley

# CONFERENCE
